

Dear IDD SC members,

As you may already know, the Building and Construction Authority of Singapore (BCA) is organising the inaugural **International Built Environment Week (IBEW)** from 3 - 6 September 2019 at the Sands Expo and Convention Centre, Singapore.

The IBEW is the first fully-integrated event in the Asia Pacific that covers the entire built environment lifecycle and value chain. Convening under the theme 'Transforming the way we build', this year's event will showcase the results of today's best practices and tomorrow's cutting edge solutions in the areas of environmental sustainability, construction productivity, and smart facilities management. Building on the success of the preceding Singapore Green Building Week/International Green Building Conference (IGBC) and Singapore Construction Productivity Week, this new flagship event promises to be bigger and more comprehensive, with a 3-day International Built Environment Conference, 1-day specially-curated tours and four co-located tradeshows.

The IBEW is designed for industry leaders and professionals who are passionate about learning the latest advancements and the most innovative developments in the sector. With over 12,000 participants from 50 countries expected to converge at the IBEW, it is the perfect platform to exchange ideas and experiences, widen business networks and discover new opportunities.

We have received numerous requests and are pleased to announce that we will be extending our Early Bird Promotion! Do forward this piece of good news to your colleagues and partners and remind them to sign up before 31 July 2019 to enjoy **more than 40% discount on the conference fee!** Simply click on the image or scan the QR code below:

TRANSFORMING the Way We BUILD

3 - 6 SEPTEMBER 2019
SANDS EXPO & CONVENTION
CENTRE, SINGAPORE

www.ibew.sg

Amidst the global challenges of rapid urbanisation, climate change and digital disruption, there lie opportunities for transformative changes in the built environment sector. Singapore is embracing and capitalising on this window of opportunity to change the way the sector builds and operates.

We are proud to present the International Built Environment Week (IBEW), the first fully-integrated event in the Asia Pacific that covers the entire built environment life cycle and value chain. Themed 'Transforming the way we build', the event will showcase today's best practices and tomorrow's innovations in four key areas: sustainability, construction productivity, digitalisation and smart facilities management.

Join 12,000 global professionals and leaders from the built environment sector as they converge at the IBEW to exchange ideas and experiences, widen business networks and discover new opportunities.

Expect a whole new experience with IBEW 2019!

Power-Packed Conference

Gain insights from over 100 expert speakers as they share their knowledge and experience in environmental sustainability, construction productivity and smart facilities management.

4 Trade Exhibitions

Learn about the latest innovations and solutions from more than 550 exhibiting companies, at the comprehensive showcase spanning over 14,000m².

Curated Journey Maps

Personalise your learning, with our new Journey Maps, specially designed to meet different interests.

Exclusive Site Tours

Complete your experience with a site tour, to learn from some of the best-in-class projects in Singapore.

Extensive Networking Opportunities

Network with 12,000 industry professionals - real estate investors, developers, building owners, architects, engineers, contractors, facility managers and more!

Complementary Workshops and Technical Talks

Complement your takeaways from the conference and site tours with the myriad of lunch-time workshops and technical talks at the exhibition floor.
