

# CONCRETE TECHNOLOGY

For Ready-Mixed Concrete (RMC) Certification, Building and Construction Authority (BCA) will require batching plants to be certified by certification bodies accredited under Singapore Accreditation Council's Accreditation Scheme. This RMC certification will be based on the new Singapore Standards SS EN 206-1 (Concrete – Specification, performance, production and conformity) and SS 544 (Concrete – Complementary Singapore Standard to SS EN 206-1).

This certificate course in Concrete Technology is jointly organised by the BCA Academy, the Singapore Concrete Institute (SCI) and the American Concrete Institute-Singapore Chapter (ACI-SC) to familiarize technical personnel in the concrete industry with the certification scheme.

**DATE**

26 & 27 February 2020
