Dear Sir/Madam

USE OF SENSOR SELF-CLOSING DELAYED-ACTION TAPS (SCDATS) IN PUBLIC TOILETS AND NON-DOMESTIC PREMISES

This circular is to inform all building owners, MCSTs and the relevant government agencies and associations on the use of sensor SCDATs in public toilets and non-domestic premises.

2. To facilitate handwashing for hygiene purpose in light of COVID-19 (Coronavirus Disease 2019), PUB would like to urge and recommend building owners of public toilets, non-domestic premises (including the common amenities of condominiums) and food retail outlets with toilet facilities to replace the existing mechanical SCDATs in the toilets/washrooms and outside-toilet facilities, with sensor SCDATs (albeit battery-operated ones if the toilet has only one washbasin). Sensor SCDATs, when activated, water shall automatically cut-off after a pre-set timing up to 60 seconds is reached or once users hands leave the sensing zone, whichever is earlier. For a toilet with more than 1 sensor SCDAT, one of them shall be battery-operated in case of power failure.

3. Only WELS registered models of sensor SCDATs for basin supplied by the registered suppliers or by their appointed distributors/retailers are allowed to be used as replacement. On the list of sensor SCDATs, consumers may wish to contact the Singapore Sanitary Ware Importers & Exporters (SSWIEA) or any of the suppliers as listed in the **Annex**. Should there be other types of taps that can facilitate handwashing, suppliers shall approach PUB for the stipulation of the required standards. Please note that the use of non-compliant water fittings is strictly prohibited.

4. Building owners of public toilets, non-domestic premises and food retail outlets which are already using sensor SCDATs must ensure that the taps continue to work properly and are well-maintained.

5. Please note that all plumbing works shall be carried out by PUB Licensed Plumbers and please refer to PUB's website at <https://www.pub.gov.sg/watersupply/plumbingworks/licensedplumbers> for a list of licensed plumbers or contact the Singapore Plumbing Society (SPS) at 62920111 or email to them at sps@plumbing.org.sg.

6. For clarifications and queries, please contact me or any of officers listed in the table below or email to pub_waterfittings@pub.gov.sg.

Name of officer	Email address	Contact no.
Ms Wong Hong Lan Fiona	wong_hong_lan@pub.gov.sg	65172934
Ms Callie Tan	callie_tan@pub.gov.sg	65172930

Thanks and regards.

Yours faithfully
