PROJECT MANAGEMENT & CONTRACTS

CONSTRUCTION CONTRACT DRAFTING & DISPUTE RESOLUTION

E-Learning

This course is designed for practitioners in the construction industry who wish to learn the basic principles of construction contract drafting and appropriate dispute resolution. The objective of the course is to provide a proper training platform to impart the necessary technical skills and requisite legal knowledge in contract drafting.

Commencing on 15 June 2020

M&E ENGINEERING

LIFT AND ESCALATOR COURSE FOR INSPECTORS

Participants will gain in-depth knowledge on the inspection of the lift and escalator installation and maintenance works in accordance to the prevailing standards.

Commencing on 23 June 2020

LIFT AND ESCALATOR COURSE FOR ENGINEERS

This technical course covers design principles, installation, testing and commissioning, operations and maintenance including periodic examination and inspection of lifts and escalators. This 5-day course comprises both classroom lectures and practical sessions. Participants will gain in-depth technical knowledge on lifts and escalators, with emphasis on the examination, inspection and testing of the equipment.

Commencing on 21 July 2020

REGULATIONS

THE SECURITY OF PAYMENT ACT – TECHNICALITIES AND PRACTICALITIES

E-Learning

The course provides an overview of the key essentials in the Security of Payment legislation. It aims to enhance participants' understanding on the mechanism, requirements and considerations of the Security of Payment Act and discusses payment issues typically encountered in building and construction projects.

Commencing on 6 July 2020

BUILDING CONTROL REGULATIONS FOR SITE SUPERVISORS

E-Learning

This course aims to equip newly accredited site supervisors with better understanding of Singapore's legal framework for the built environment.

Commencing on 26 June 2020

BIM & PRODUCTIVITY

Certification Course in
BIM MODELLING (Architecture Track)

Building Information Modelling (BIM) is a process that involves the generation and management of the information about a facility. BIM allows for great integration and collaboration among different building professionals of various disciplines to explore digitally, and can be used throughout the entire building process from design stage through construction stage and even post construction building management.

Commencing on 6 July 2020

QUALITY

Internal Quality Audit based on
**ISO 9001 (QUALITY), ISO 14001 (ENVIRONMENT)
& ISO 45001 (HEALTH & SAFETY) STANDARDS**

Blended Learning

This course aims to equip Internal Auditors with the knowledge and skill required to assess, monitor and measure the performance of an organisation's integrated QEHS Management system. With the introduction of ISO 45001, the course covers latest updates of the new editions and highlights the necessary revisions to ensure smooth transition from current version.

Commencing on 28 July 2020
