

Weeks 4 and 5 of IBEW 2020 saw industry thought leaders coming together to review the current state and deliberate the future of the built environment.

OPENING ADDRESS AT CEOs IN CONVERSATION

Mr Tan Kiat How, Minister of State, Prime Minister's Office and Ministry of National Development, launched the BE Living Laboratory Framework, to facilitate test-bedding of innovative proposals in urban spaces and living environment. He also spoke about the Skills Framework for the Built Environment, which provides key information such as career pathways, occupations and job roles, as well as existing and emerging skills required for the sector.

BUILDING A STRONGER & MORE RESILIENT SINGAPORE BUILT ENVIRONMENT SECTOR

COVID-19 has accelerated the adoption of new ways of thinking and doing things in Singapore's built environment sector. Industry thought leaders shared insights on the opportunities and challenges faced by Singapore businesses and discussed how businesses could transform for greater adaptability and resilience.

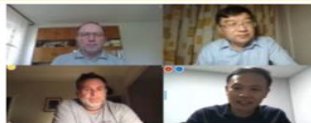

REIMAGINING THE BUILT ENVIRONMENT IN THE POST-PANDEMIC ERA

Built environment leaders shared insights on the opportunities and challenges that Singapore businesses faced as they navigated COVID-19 and discussed how businesses could transform and become more resilient in the post pandemic.

FUTURE-PROOFING WITH EMERGING BUILDTECH

Many BuildTech innovations are already overhauling the way we build, with construction innovations being applied to real life projects. What else can we expect?

BE SPARKS - SUPPORTING THE START-UPS IN THE BUILDTECH SPACE

To germinate start-ups in the BuildTech space, the ecosystem needs to be conducive, with far-sighted policy direction and enterprise support to encourage growth.

An initiative by: Ministry of National Development
