

Dear Industry Professionals,

We would like to cordially invite you to join us for the **BCA Webinar - Ensuring Safe Design & Construction Vigilance in the New Norm** on 17 Nov 2020 (Tuesday), 9am to 12.30pm.

To register, please scan the below QR code or visit <https://go.gov.sg/ensuring-safe-design-and-construction-vigilance-in-new-normal-17nov>

INTRODUCTION

Buildings need to be designed properly and built safely. Industry stakeholders are required to comply with the building regulations and adopt good practices when carrying out building works to ensure construction works are properly designed and carried out without compromise to structural safety, or cause damage to surrounding properties.

This session aims to highlight the importance of building safety compliance. BCA will share the upcoming building control initiatives as well as good practices for both the design and construction of building works. A preview of the **new stratigraphy framework for geology of Singapore** will be shared.

TOPICS & SPEAKERS

No.	Programme
1	OPENING ADDRESS <i>By Er. Chew Keat Chuan, Commissioner of Building Control, BCA</i>
2	REQUIREMENTS FOR ROBUSTNESS AND RISK ASSESSMENT <i>By Er. Lung Hian Hao, Director, Bridges and Structural Steel Department, Building Engineering Group, BCA</i>
