

Webinar on:

COVID-19 – Practical Approach to Understanding Air Regulation in Singapore

03 Nov 2020 (Tue) | 04:00pm - 05:00pm (SGT)

Presented by:
Mr. David Shanmugam
LLB, MBA, DIP Sing Law

Mr. David Shanmugam has conducted legal training for the corporate sector on the various practical legal issues facing the corporate field and has lectured on Business and Company Law. His forte is in the field of corporate and commercial drafting of contracts, including company matters. He has conducted legal training programmes for Singapore Association Institute of Chartered Secretaries and Administrators, National University of Singapore Continuing Education.

He holds a LLB from the University of London and MBA from Victoria University. He is also an Advocate & Solicitor of the Supreme Court of Singapore.

Having good knowledge of air quality control issues in commercial and residential building is becoming very critical for most building owners, who run commercial and residential units in Singapore. In the light of the COVID-19, air quality control has taken more prominence or dominance for health issues. This webinar will cover these topics:

- Background information of the air quality framework in Singapore.
- Current legislative framework, and how it operates.
- Administration procedures and including recent developments (In Singapore).
- Practical approach of resolving disputes and the methodology.
- Case Studies and Evaluations.
