

CAR (CONTRACTORS' ALL RISKS) & PI (PROFESSIONAL INDEMNITY INSURANCE) TRAINING WORKSHOP – ONLINE

Course Overview

This specially crafted two-day program will enable participants to understand the coverage afforded under the two related policies, namely Contractors' All Risks (CAR) Insurance and Professional Indemnity (P.I) Insurance. Participants have the option of signing up for either one of the two or BOTH sessions to obtain better knowledge of this interesting subject which will be shared by an experienced regional risk Consultant, based in Singapore.

Day 1, 30 March (Tue)

C.A.R - The need for such coverage under the Conditions of Contracts (PS COC, SIA and FIDIC wordings) will also be addressed. It has two main sections ie. Section I and II. Cover for delays under the Advanced Loss of Profit (A.L.O.P) section will also be introduced.

Day 2, 31 March (Wed)

P.I - This class of insurance is normally taken up by Engineers, Architects and Surveyors to protect their professional responsibilities. This policy is a liability cover for the insured party in the event of a negligent claim made by a client. Explanation will also be shared on the "retrospective cover" under this annual program.

Both are related to projects, but they have some technical differences. These differences will be highlighted and specific clauses / endorsements will be addressed. Several interesting and real - life case studies will also be used to share the applications of these respective insurance policies based on Singapore and regional projects.

EVENT DETAILS

Date: 30 & 31 March 2021 (Tue & Wed)

Time: 9.00am – 5.00pm

Venue: Zoom (More information and the access link to join the session will be shared after confirmation of registration)

Learning Outcomes

At the end of this workshop, participants will be able to:

- Understand how the construction policies are arranged
- Know the basic principles of insurance and how it is applied in the policies
- Appreciate the differences involved between C.A.R and P.I covers
- Draw up the difference between Sum Insured and Limit of Liability
- Highlight the importance of investigation to establish “cause” when there is a loss
- Learn some special clauses such as ‘retrospective cover’ that is provided in the P.I insurance

Collapse of bridge formwork during concrete pour

Sinkhole on existing road due to excavation works

Mobile crane overturned

Flooding to third party property due to project work

Fire damage to building under construction

For Whom

Engineers, Senior Engineers, Project Managers, QS, legal advisors and Heads of Departments from the following industry segments – Developers, Contractors, Suppliers, Consultants, Architects, Banks, Surveyors, Government Authorities.

Programme Outline

- The need for insurance for construction/ erection risks
- How the policies respond and the relevant peril(s)
- The clauses, conditions and endorsements that apply
- Comparison between the two policy wordings
- Understand how the respective policies are arranged and underwritten
- Appreciate the concerns of underwriter when considering a risk
