A Glimpse into the Singapore Green Building Masterplan

Monday, 22 March 2021 | 2:00 PM - 4:30 PM (SGT)

Minister for National Development Mr. Desmond Lee has outlined the [Singapore Green Building Masterplan \(SGBMP\)](#) during a joint segment on sustainability in Parliament on 4 March 2021. The 4th edition of the SGBMP - co-created by the Building and Construction Authority (BCA) and SGBC - comes as part of the Singapore Green Plan 2030, which charts Singapore's green targets over the next decade.

Dubbed "80-80-80 in 2030", the SGBMP outlines 3 key targets:

- **Target 1: Green 80% of buildings by 2030**
- **Target 2: 80% of new buildings to be Super Low Energy**
- **Target 3: 80% improvement in energy efficiency**

Find out more about upcoming changes to the Green Mark scheme and Code for Environmental Sustainability of Buildings at this briefing and consultation session. BCA will share insights into the proposed changes, as well as how the Green Mark criteria will be restructured for greater impact. A discussion session has also been included to provide green building stakeholders with a better understanding of the proposed changes and discuss any areas of concerns.

Join us to **Build our Green Future together.**
