

RE-IMAGINING THE **FUTURE**

INTERNATIONAL BUILT ENVIRONMENT WEEK
7 - 9 SEPTEMBER 2021

WWW.IBEW.SG

KICKSTART YOUR TRANSFORMATION JOURNEY WITH IBEW

2021 is an exciting year for all of us. As we continue to evolve in the way we design, build and operate, it is important to remain engaged in the industry, advance our knowledge and skills, and leverage technology to accelerate the transformation of the built environment sector.

The **International Built Environment Week (IBEW)** returns this year from **7 - 9 September 2021** with a series of thought leadership discourse, offering a glimpse of the built environment sector of the future. Join us at Asia Pacific's most anticipated built environment event for inspiration and a chance to learn, network and explore business opportunities.

Spotlight Plenary: Towards Zero Carbon – From Buildings to Cities Tuesday, 7 September 2021, 1600 – 1730

** Simultaneous English-Chinese interpretation available*

Even as sustainability initiatives spring up across the world, what else can cities do to achieve net zero? This plenary explores the opportunities and challenges that come with this vision, offering insights for a better understanding of the need, potential and best practices that will help the world achieve this ambitious goal.

Leadership Plenary: Building a Resilient and Agile Ecosystem Wednesday, 8 September 2021, 0900 – 1030

** Simultaneous English-Chinese interpretation available*

COVID-19 has highlighted the urgency for the built environment ecosystem to build resilience and agility and find growth opportunities to meet changing needs. Join renowned built environment leaders as they offer insights on how to build a robust industry value chain and share on how to create and preserve business value in the face of adversity.

Keynote Plenary: A Technology-Driven Future for the Built Environment Wednesday, 8 September 2021, 1600 – 1730

** Simultaneous English-Chinese interpretation available*

Technology is an integral part of our cities and our built environment. Hear from our eminent panel of technologists and innovators as they deliberate on the latest trends and share how firms can leverage innovative technologies to transform their businesses and accelerate growth in the built environment sector.

CEOs in Conversation: Imagining the Future of Singapore's Built Environment Thursday, 9 September 2021, 0900 – 1030

** Simultaneous English-Chinese interpretation available*

The climate emergency, technological disruption, manpower shortage and COVID-19 have pressed home the urgent need for quicker transformation of the built environment sector in Singapore. Join industry thought leaders as they weigh in on the future of Singapore's built environment sector and how it can align itself with the Singapore Green Plan 2030.

Programme updated as at 24 Mar 2021
