

## RIDING THE WAVE OF TRANSFORMATION FOR THE BE SECTOR

Effective collaborations across the built environment (BE) lifecycle and value chain and continuous improvements in the way we design, build and operate are cornerstones of a sustainable and resilient BE sector.

The International Built Environment Week (IBEW) 2021, to be held from 7 – 10 September 2021, aims to support firms in transforming their businesses to meet future challenges. The BE in Awe and BE Connect series are specially curated to instil a better understanding of the latest trends and implementation challenges in accelerating our goal towards digital transformation, zero carbon and smart cities. Join us at the IBEW and prepare to ride the wave of transformation for the BE sector!

IBEW 2021 early bird promotion will open in May 2021, with attractive rates for early registrants. Pre-register your interest now and be the first to sign up for this event when registration opens!

7 SEP 2021 (TUE) 11.00 - 12.30 SGT	8 SEP 2021 (WED) 11.00 - 12.30 SGT	8 SEP 2021 (WED) 14.00 - 15.30 SGT	9 SEP 2021 (THU) 14.00 - 15.30 SGT

### BE CONNECT: SUPER LOW ENERGY BUILDINGS

This session will showcase exemplary Super Low Energy Building projects. Hear how the synergistic collaboration between Developers and the Project Teams can help push the boundaries of green buildings.

### BE CONNECT: SMART FACILITY MANAGEMENT - THE WAY FORWARD

Smart technologies are transforming the way we work and operate, offering a holistic approach to facility management (FM). Hear how developers and their ecosystem partners cross boundaries through smart FM.

### BE IN AWE: DRIVING GROWTH THROUGH INNOVATION

Innovation is essential for business growth and the transformation of the built environment sector. Find out how leading firms are leveraging innovation to drive productivity improvement and develop cutting edge capabilities.

### BE IN AWE: SMART CITIES OF THE FUTURE

Future cities should be smart, sustainable and resilient. But how do we get it right? Hear from professionals from various disciplines as they share their vision and knowledge of building and operating future smart cities.

*Simultaneous English-Chinese interpretation is available for all BE in Awe sessions.  
Programme is updated as at 25 Apr 2021*
