

NET ZERO, OUR SPRINGBOARD FOR TRANSFORMATION

While COVID-19 has shaken the world, the threat posed by climate change has not gone away. The increased interest in net zero target setting signals a long-term shift to decarbonise economies in response to climate emergency. More than just a buzzword in the 21st century, net zero is certainly the springboard for the transformation of our built environment sector. However, in the fragmented and project-focused built environment sector, how can we bring together the whole value chain to drive transformation based on a common vision?

Join us in IBEW 2021 and gain insights on possible pathways for a net zero built environment!

OPENING PLENARY: GROWTH POTENTIAL IN A NET ZERO WORLD

7 SEP 2021 (TUE)
11.00AM – 12.30PM (SGT)

We are now seeing an acceleration of investment into the creation of a decarbonised global economy, which signals the even greater potential value realisations of this climate revolution in the future. Come join our panel of renowned built environment leaders in the discussion of how we can leverage on this net-zero agenda to discover new business opportunities and growth potential. Don't wait any further – join the discussion at BEW now!
