

Greetings from Nanyang Technopreneurship Center, Nanyang Technological University!

The Fintech Disruption for the Future of Finance Programme (6 days programme) aims to explore FinTech from a business, technical and regulatory perspective and discover the impact of breakthrough technologies such as AI, blockchain, and cloud computing to the existing practices of the banking and finance industry. Participants will have a comprehensive understanding about tech-enabled services, including e-payment, electronic data interchange, wireless hand-held inventory unit, Point-of-sale (POS) and Customer Relationship Management (CRM) systems. Furthermore, key concepts of FinTech regulation and the future of FinTech are integrated into the programme to enable participants to navigate the dynamic nature of the FinTech environment in the long term.

Programme Dates: 9/16/23/30 Sep, 7/14 Oct 2021 (6-day)

Programme Timing: 9am – 5pm (Break time: 12pm – 2pm).

Learning platform: Online via ZOOM and NTULearn.

The Programme is strongly supported by SkillsFuture Singapore. Singapore Citizens or PRs who are officially admitted to the programme are eligible to receive a course fee grant up to **70%-90% of the programme fees (excluding GST)**.
