

URBAN SUSTAINABILITY R&D e-Symposia 2021

EMERGING STRONGER: INNOVATIVE CITIES OF TOMORROW

A SERIES OF 3 WEBINARS ON “CITY IN NATURE”

COMPLETED

ECOLOGY *in* CITIES: ENHANCING GREENERY AND BIODIVERSITY IN OUR ECOSYSTEMS

COMPLETED

ECOLOGY *for* CITIES: NATURE-BASED SOLUTIONS FOR URBAN SUSTAINABILITY

ECOLOGY *of* CITIES: MANAGING HUMAN-NATURE RELATIONSHIPS IN THE CITY

17 September 2021 | 4pm - 5.30pm

Greenery pervades Singapore’s urban landscape today. As we move towards becoming a “City in Nature”, we will further integrate nature into our city to strengthen Singapore’s distinctiveness as a highly liveable city, while mitigating the impacts of urbanization and climate change.

In this last of three webinars on “City in Nature”, we will discuss how our urban society is increasingly interacting with the natural environment. This includes planning for greenery upstream in long-term city planning, learning to manage human-animal interactions, and exploring how nature can improve our well-being.

Distinguished Speakers

Nature, Liveability and Long-Term City Planning

Mr. Yam Yujian

*Director (Planning Policies),
Urban Redevelopment Authority*

Societal Responses to Urban Nature

Dr. Harvey Neo

*Senior Fellow (Lee Kuan Yew Centre for Innovative Cities),
