EMERGING STRONGER: INNOVATIVE CITIES OF TOMORROW

Jurong Lake Gardens is Singapore's first national gardens situated in the heartlands. As NParks' Living Lab, the Gardens is also a showcase for sustainable design and smart technology for sustainable operations.

In this Call for Proposals, we are inviting submission of proposals for testbedding at Jurong Lake Gardens. Proposals will receive assistance in navigating regulatory hurdles and deployment considerations. If proven successful, solutions may be adopted for use at the Gardens and for scalingup islandwide.
