

In this edition of the BuildSG Magazine: Resiliency in a post-pandemic world, re-imagining Singapore in the year 2100 and how innovations can help reshape the BE sector and more.

Read on for selected highlights from the International Built Environment Week (IBEW) 2021 that was held from 7-10 September 2021.

Building a greener, digital Singapore with enhanced Green Mark and CORENET X

Minister for National Development Desmond Lee shared that while the Built Environment sector (BE) has suffered severely due to the COVID-19 pandemic, the crisis also offers an opportunity for concrete change and transformation.
