To water fittings suppliers, test laboratories, Singapore Sanitary Ware Importers & Exporters' Association (SSWIEA), Singapore Plumbing Society (SPS), Certification Bodies for Water Efficiency Labelling Scheme (WELS), Licensed Plumbers and all relevant test laboratories, government agencies, statutory boards, Professional Engineers, M&E consultants, associations and organisations.

Dear Sir/Madam

**WATER FITTINGS REGISTRATION & INFORMATION SYSTEM BY THE SINGAPORE SANITARY WARE IMPORTERS & EXPORTERS ASSOCIATION (SSWIEA)**

The Water Fittings Registration and Information System (WFRIS) is a newly launched programme developed by SSWIEA. This registration system facilitates the checking of compliance status of water fittings (i.e. non-WELS such as pipes, pipe fittings, valves, joints, rubber gaskets, water storage tanks, etc.) to ensure that these products have been fully tested to PUB's requirements. For more information, please refer to SSWIEA's website at [www.waterfittings.sg](http://www.waterfittings.sg).

2. **The list of products published in SSWIEA's website is for industry's reference, and should not be in any way deemed as products being approved by PUB. Matters relating to fees and charges under the WFRIS is a commercial arrangement.**

3. While it is not compulsory to register/list your water fittings/products with WFRIS, **PUB strongly encourages you to do so** because the platform will be referenced by industry professionals when they source for water fittings and materials (e.g. coatings, linings, elastomeric seals, etc.). To promote the use of compliant and quality fittings, there are also plans to profile water fittings/products with good track records, striving to conform to higher levels of standards (e.g. batch-tested by accredited test labs/certification bodies, recency of test reports for key tests, etc.).

4. Water fittings/appliances, covered under the Water Efficiency Labelling Scheme (MWELS and VWELS), shall continue to be certified by an accredited Certification Body (CB) for WELS. Suppliers should continue to approach the CBs directly for certification and WELS registration. The list of WELS registered models can be found in PUB's WELS website at <https://www.pub.gov.sg/wels/welsproducts>.

5. We would like to highlight that if standards and requirements for a water fitting (WELS and non-WELS) are not stipulated in the PUB's Stipulation of Standards & Requirements for Water Fittings (PUB S&R), **the supplier, manufacturer or the responsible party shall approach PUB to stipulate the necessary standards and requirements for compliance. This includes any innovative water fittings/products which meet specific purposes where they need to be evaluated, reviewed and cleared by PUB with specific conditions applied on a case-by-case basis.** Suppliers, manufacturers

or the responsible party are encouraged to work with an accredited test laboratory to propose the test requirements before approaching PUB.

6. Please disseminate the information in this circular to your relevant distributors, stakeholders, retailers, manufacturers and other industry partners for their information and compliance. A copy of this circular is also downloadable from PUB's website at <https://www.pub.gov.sg/compliance/industry/circulars>. If you have any queries concerning this circular or need further clarification or assistance, please contact me or email to [pub\\_waterfittings@pub.gov.sg](mailto:pub_waterfittings@pub.gov.sg).

Yours faithfully

NORYATI ABDULLAH  
SENIOR ENGINEER  
for DIRECTOR  
WATER SUPPLY (NETWORK) DEPARTMENT
