

Architectural Practice Course 2022 (APC 2022)

Date: 29 April 2022 Circular No: 2022/002/TAA/JC

The
ARCHITECTS
ACADEMY

BY SINGAPORE INSTITUTE OF ARCHITECTS

Summary

SIA is authorised by Board of Architects (BOA) to develop and manage the Architecture Practice Course (APC). Attending APC is mandatory for candidates enrolling in BOA's Professional Practice Examination (PPE). The course is specifically designed with a combination of both theoretical principles and best-practice curriculum.

Overview

The Architectural Practice Course (APC) aims to prepare and equip candidates for the Professional Practice Examination (PPE). It is a mandatory training programme for candidates enrolling for the Board of Architect's PPE. The curriculum is specifically planned and designed to integrate theoretical principles (as per syllabus) with practical knowledge from experienced tutors.

While APC is customized mainly for PPE candidates, it is also useful and suitable for architects who wish to update and refresh themselves on the latest development in professional knowledge such as administration of the updated Building Contract 2016.

Architects have the option to register for individual session(s) which they wish to attend.

Candidates and Architects may click the link below if they wish to attend the full course or specify the individual sessions to purchase.

The course comprises of twenty-one evening sessions aside from 4 tutorial classes and is conducted weekly with a total duration of 60 hours. The candidates are required to attend all the sessions as each session is designed to prepare and equip them for the PPE. This will be conducted via zoom. Tutorials will be held in person should SMMs allow. Each learner will attend 4 tutorial sessions. They are attend 1 session from each tutorial.

In view of the ongoing COVID-19 outbreak SMMs and movement restriction, APC 2022 will be conducted through online Webinar tools. For good order and verification of attendance, it will be monitored and recorded from time to time. Exact timings will be published in due course. Participants who leave the webinar session before 8.30pm will be considered as absent.
