[Pre-register](#) now to attend the [15th Singapore International Energy Week \(SIEW\)](#) this 25-28 October, at the Marina Bay Sands, Singapore. Be part of the conversation as the energy world meets in one week one location.

A RESILIENT AND SUSTAINABLE ENERGY FUTURE

The theme for SIEW 2022 is **A Resilient and Sustainable Energy Future**. Post COP26, there is strong momentum for countries to do more to decarbonise their economies and ride the green wave to reduce emissions. In addition to sustainable energy sources, our energy systems must also be resilient. The ongoing energy crisis has emphasised the importance of energy security and some countries have prioritised this above decarbonisation initiatives. Against this backdrop, SIEW 2022 will discuss policies, frameworks, and best practices to accelerate the transition to a more resilient, greener and more inclusive energy future. It will also examine the opportunities and challenges as the region scales up investments and regional connectivity for a green economy.

SIEW SUMMIT

The [SIEW Summit](#) comprises SIEW's signature events - the [Singapore Energy Lecture](#), [SIEW Opening Keynote Address](#) and [Singapore Energy Summit](#).

The Singapore Energy Summit (SES) facilitates high-level dialogues on energy issues centred on this year's theme, "A Resilient and Sustainable Energy".

Securing a Resilient and Sustainable Energy Future

This session will address how regional governments and stakeholders can work together to ensure a sustainable and resilient energy future. Speakers will present their perspectives on the priorities and action needed to drive the dual goals of energy security and energy transition amidst the evolving geopolitical developments. There will also be discussions on the policies and frameworks to transform industry, economy, and society to progress towards a secure and sustainable energy transition.

Accelerating Low-Carbon Solutions

This session will address how governments and corporates can catalyse the development of supply chains for low-carbon solutions such as hydrogen and carbon capture, utilisation and storage (CCUS). Speakers will also share their perspectives on the role that innovation plays in improving technical aspects and driving down costs of low-carbon solutions. There will also be discussions on what roles technologies such as geothermal and nuclear may have in the energy transition.

Mobilising Greener Financing for Energy Infrastructure

This session will address how greater sustainable private financing and growing corporate net zero commitments can come together to achieve low carbon goals earlier. Speakers will share their perspectives on facilitating green financing for energy infrastructure developments, including how these investments would lead to more renewable energy projects and grid renewals, and interconnections in the region.

CONFIRMED PARTICIPATION AT SIEW

- International Energy Agency
- International Energy Forum
- International Renewable Energy Agency
- World Energy Council
- Ministry of Foreign Affairs of Denmark
- Electrical and Mechanical Services Department, Hong Kong SAR
- Office of The Regulator (Samoa)
- Clifford Capital Pte Ltd
- Osaka Gas
- PT Pertamina Geothermal Energy
- Pavilion Energy
- Siemens Energy AG
- Tellurian

SIEW PARTNER EVENTS

Join our partner events to learn more about the energy challenges, opportunities, and best practices in Asia Pacific and beyond. SIEW Partner Events provide insights and perspectives across the energy spectrum of oil & gas, clean and renewable energy, and grid!

25 Oct – Tuesday	26 Oct - Wednesday	27 Oct - Thursday	28 Oct - Friday
 SIEW SUMMIT SIEW Summit Singapore Energy Lecture (SEL) SIEW Opening Keynote Address (SOK) Singapore Energy Summit (SES)	 Singapore-IEA Ministerial Roundtable	 SIEW Energy Insights	 Youth@SIEW

About SIEW

The [Singapore International Energy Week \(SIEW\)](#) is an annual platform for energy professionals, policymakers and commentators to discuss and share best practices and solutions within the global energy space. The 15th edition of SIEW will be held from the 25-28 October in Singapore.

About the Energy Market Authority

The Energy Market Authority (EMA) is a statutory board under the Ministry of Trade and Industry. Our main goals are to ensure a reliable and secure energy supply, promote effective competition in the energy market and develop a dynamic energy sector in Singapore. Through our work, the EMA seeks to forge a progressive energy landscape for sustained growth. Please visit www.ema.gov.sg for more information.
