

# CORENET X

A ONE-STOP INTEGRATED DIGITAL SHOPFRONT FOR REGULATORY PROCESSES

## Webinar on Introducing IFC-SG Training

### Training Highlights

- ☑ Understanding IFC-SG Mapping
- ☑ Embedding IFC-SG into Native \*BIM
- ☑ Exporting Native BIM into IFC format

*\*currently available for Revit, training on other software will be coming soon*

12 Aug (Fri), 10am-12pm

Association of Consulting Engineers Singapore (ACES)

complimentary

PDU to be confirmed

## About

The CORENET X project was initiated in 2018 with the objective to leverage technologies such as Building Information Modelling (BIM) and automation, to transform the regulatory approval process for building works. CORENET X will be a One-Stop Integrated Digital Shopfront, targeted to be rolled out from end 2023.

To ensure our regulatory information can be captured and exported to IFC, a localized set of IFC data requirements was developed, called IFC-SG.

Based on the IFC-SG Resource Kit developed by GovTech, the Regulatory Agencies, and BIM software developers, AcePLP and BIMAGE has developed IFC-SG Training to kickstart industry preparation for CORENET X. **Classes will commence from end August 2022.**

This webinar aims to share more info and details of the 1-day training. **After the webinar, firms are encouraged to sign up as soon as possible as places are limited.**

\*More info and resources on CORENET X, including the draft IFC-SG Resource Kit, is available at: <https://go.gov.sg/cx>

## Webinar Programme

### 10:00am - 11:00am

Opening and Updates on the IFC-SG Development, including latest IFC-SG Resource Kit\* by GovTech

### 11:00am - 12:00pm

All about IFC-SG Training by AcePLP and BIMAGE
