

International Built Environment Week (IBEW) 2022

Built Environment Technical Seminar Series #4

HARNESSING DATA FOR ENHANCED INTEGRATED DIGITAL DELIVERY

18 Aug 2022 | 2pm – 5.30pm | BCA Braddell Campus, Auditorium (T1-1)

With the increased in digitalisation throughout the building lifecycle, large amount of data are generated. The data offer valuable insights for the built environment (BE) stakeholders to build upon to progressively improve their workflows and build competitive edge. The seminar shares insights on trends, innovations and practical strategies on how the stakeholders could better manage and harness data gathered to maximise potential of IDD. You will also hear from the speakers on technical specifics and methodologies adopted, illustrated through case studies.

TOPICS & SPEAKERS

Making Data Meaningful for BE projects

Ms Yve Xu
Senior Manager,
Digital Built Environment,
JTC Corporation

Fostering Culture of Data Driven Decision

Mr Muhammad Khalil
Deputy Director, Group
Technology Office,
Boustead Projects

Achieving More Efficient Contract & Cost Management with Data

Mr Jason Wong
Country Product
Manager, Glodon SEA

Construction Alliance Platform: Digital Transformation

Mr John Tan
Smart Cities Business
Development Director,
SoftwareONE

The Smart Digital Reality: Beyond Digital Twin & Smart Workflows for IDD

Mr Jonathan Ng
Global Sales Director,
Hexagon

Using AI & Data Optimisation through 360 Photography for Construction

Mr Ho Kah Chun
Technical Head, OpenSpace
APAC

Who Should Attend

The Lead-in Technical Seminar Series are suitable for all levels of personnel and professionals in the built environment sector

Fee: S\$160 per session (incl. 7% GST)

CPD Points*: BOA-SIA / PEB

*Pending approval and will be updated subsequently
