

# SIA – Webinar on Introducing IFC-SG Training

## Synopsis

“The CORENET X project was initiated in 2018 with the objective to leverage technologies such as Building Information Modelling (BIM) and automation, to transform the regulatory approval process for building works. CORENET X will be a One-Stop Integrated Digital Shopfront, targeted to be rolled out from end 2023.

To ensure our regulatory information can be captured and exported to IFC, a localized set of IFC data requirements was developed, called IFC-SG.

Based on the IFC-SG Resource Kit developed by GovTech, the Regulatory Agencies, and BIM software developers, AcePLP and BIMAGE has developed IFC-SG Training to kickstart industry preparation for CORENET X. Classes will commence from end August 2022.

The webinar aims to share more info and details of the 1-day training. After the webinar, firms are encouraged to sign up as soon as possible as places are limited.”

Date	2022-08-19
Event start	10:00 AM
Venue	Zoom Webinar

## Speakers

### Li Qihua

Senior Geospatial Specialist

GovTech

Qihua is the Senior Geospatial Specialist at the Modelling & Simulation Practice of the Government Technology Agency. She has been involved in IFC-SG since the development of CORENET X started in 2018.

Sharon is the Manager for Training & Education at BIMAGE Consulting Pte Ltd. She is involved in planning and conducting AEC product trainings, including BIM Training for Regulatory Officers on IFC-SG.

## Valarie Tang

Director at AcePLP and Ace Industrial Academy

AcePLP

Valerie is the Director at AcePLP and Ace Industrial Academy. AcePLP is a digital delivery services provider, while Ace Industrial Academy offers modular courses in digital delivery skills for working professionals. She combines her work in Construction IT and knowledge in adult and continuing education to engage Built Environment Professionals in the lifelong learning and application of Integrated Digital Delivery skills.
