IES Green Plan Survey - Dissemination through CIJC

In support of the Singapore Green Plan 2030, our CIJC partner, The Institution of Engineers, Singapore (IES), has come up with the IES Green Plan 2030. This will be their key initiative from this year all the way till 2030. A critical element in the process of consolidating the plan is the gathering of perspectives from you, a fellow industry stakeholder, so as to enable IES to enhance its value propositions and shape their course of action.

Kindly fill in the IES Green Plan Survey (link below), which will close on 15 Sep 2022 (Thu), 5pm. Thank you very much for your feedback.
