The graphic features the SIEW 2022 logo at the top left, which includes a '15th' anniversary icon and the text 'SIEW 2022 SINGAPORE INTERNATIONAL ENERGY WEEK A RESILIENT AND SUSTAINABLE ENERGY FUTURE'. The main text reads 'SIEW 2022 EARLY BIRD RATE' in large, bold letters. Below this, it says 'Save SGD\$700 when you register before 1 October 2022'. A prominent yellow and blue banner displays 'SGD \$1190 for SIEW Summit' with 'Original Price: SGD\$1890' written below it. A blue button with white text says 'REGISTER NOW'. The entire graphic is framed with a colorful, patterned border.

A RESILIENT AND SUSTAINABLE ENERGY FUTURE

25 – 28 OCTOBER 2022

Don't miss your opportunity to be a part of the 15th edition of [Singapore International Energy Week \(SIEW\)](#).

Happening on 25 – 28 October, SIEW 2022 will feature a strong line-up of global energy government leaders and industry captains who will share their perspectives on this year's theme, "A Resilient and Sustainable Energy Future". Attendees can expect a line-up of exhibitions, networking receptions and a SIEW 15th Anniversary showcase this year to enhance their onsite experience.

[Grab your early bird tickets](#) – Save up to SGD \$700!

SINGAPORE-IRENA HIGH-LEVEL FORUM

The 2nd Singapore-IRENA High-Level Forum will convene with the theme of "Realising Green Energy Financing and Decarbonisation Opportunities for a Net-Zero Future". This Forum provides an opportunity for high-level government representatives, financial institutions, development partners and industry leaders to come together to take stock and identify green financing pathways to strengthen the pathways for end-use decarbonisation technologies on the road to net-zero.

Welcome Remarks by Singapore
Opening Address by Francesco La Camera, Director-General, IRENA
Plenary Session 1 – Scaling Decarbonisation Technologies
As the world races to average global temperature below 1.5°C from pre-industrial levels, decarbonisation technologies such as green hydrogen represents a game changer for the global energy transition. For it to be meaningfully deploy, there are significant challenges that the international community must work together to

overcome. Proactive policy making is needed to strengthen the deployment of these decarbonisation technologies especially in hard-to-abate sectors.

This session will focus on how the international community can come together to scale and address the challenges and opportunities in forging a low-carbon, resilient energy future together.

Plenary Session 2 – Fostering Green Financing Leadership

Investments in the energy transition continues to remain fragmented and concentrated. For the energy transition to become truly global, access to financing has to widen considerably, with more than USD 115 trillion of investments needed by 2050. Against this backdrop of challenges and opportunities, there is an impetus for both the public and industry leaders to enhance and foster fiscal and non-fiscal incentives and instruments such as carbon markets and carbon credit trading, to support the development bankable clean energy opportunities in for the global energy transition.

As the world collectively work towards a net-zero future, this session will address how global business leaders, policymakers, and investors can be leaders in bridging the gaps in green energy financing.

Closing Remarks

Networking Reception

SIEW SUMMIT

The [SIEW Summit](#) comprises EMA's anchor events - the [Singapore Energy Lecture](#), [SIEW Opening Keynote Address](#) and [Singapore Energy Summit](#). These events will facilitate high-level dialogue on energy issues centred around this year's theme, "A Resilient and Sustainable Energy". Key topics to be discussed include:

SECURING A RESILIENT
AND SUSTAINABLE
ENERGY FUTURE

ACCELERATING
LOW-CARBON
SOLUTIONS

MOBILISING
GREENER
FINANCING FOR
ENERGY FUTURE

About SIEW

The [Singapore International Energy Week \(SIEW\)](#) is an annual platform for energy professionals, policymakers and commentators to discuss and share best practices and solutions within the global energy space. The 15th edition of SIEW will be held from the 25-28 October in Singapore.

About the Energy Market Authority

The Energy Market Authority (EMA) is a statutory board under the Ministry of Trade and Industry. Our main goals are to ensure a reliable and secure energy supply, promote effective competition in the energy market and develop a dynamic energy sector in Singapore. Through our work, the EMA seeks to forge a progressive energy landscape for sustained growth. Please visit www.ema.gov.sg for more information.
