

What's On @ Archifest 2022!

Date: 7 September 2022 Circular No: 2022/063/MS/RW

Dearest friends, ArchiFest 2022 is back! Run from 9 - 30 Sep, the theme of this year's festival is "The Order Of Love", and we invite fellow architects as well as anyone else interested in the built environment to contemplate what is needed for a loving and more hospitable future!

What's on @ Archifest this coming week!

ArchiWORKSHOP #1 - ArchiQueenstown School Design Workshop

With one of the highest proportions of elderly aged 65 and above, Queenstown earned its reputation as an "elderly town". Therefore, we wish to tease out conversations and actions to deepen our understanding of love in this aging town.

The ArchiQueenstown School Design Workshop will integrate architectural education into the 3-day programme, cultivating the innate curiosity and love for the students towards their environment and care for others. It will be an architectural design workshop on how to make your neighbourhood lovable, getting students to generate lovable ideas on how their schools can be more connected with their surrounding environment and communities.

View the workshop exhibition by the students in the URA Centre atrium after 8 September!

Date & Time: 9 September onwards

Location: URA Centre

ArchiFORUM #1 - 7 Pavilions, 7 Aspects of Loving Environments

This forum is a priced and ticketed event with limited seats. Light snacks will be provided after the forum. Please register early to enjoy the (super duper) early bird price! Check the peatix for CPD points update.

We invite 7 teams of architects, designers and builders to inquire into 7 aspects of “The Order of Love”. We ask: How can designers and the arc of collaborators move towards a safe Anthropocene? That as we build, we seek a way to create a more loving and hospitable future characterised by mutual understanding, compassion, joy, acceptance, and a sense of belonging. Join us in this forum to discover how these 7 pavilions showcased 7 aspects of loving environments. Let’s come together to understand how each design team came up with their design ideas and aspirations for their pavilions!

Date & Time: 10 September 2022, 9:00am - 11:30am

Location: URA Centre | Function Hall

[2 CPD points]

Circular Futures: Towards a more Resource-Efficient Architecture

Circular Futures: Towards a more Resource-Efficient Architecture. Prof. Carlos Banon from SUTD shares the concept behind the design of one of the Archifest pavilions. Pavilion 1 is themed “Connection”. Founded by Carlos Bannon and Raspall Felix, their research projects span Geometric Exploration for Space Making (GESM), 3D Printing applied to actual building components, Artificial Intelligence applied to high-rise developments, and Affordable Housing prototypes.

Date & Time: 14 September 2022, 6:30pm - 9:00pm

**Location: 5 Straits View. Marina One The Heart (West Tower) #01-16/17
Singapore 018935**

ArchiCarnival

The URA Centre serves as the heart of Archifest 2022, housing various activities such as workshops, forums and other fringe events. In addition to these events,

mini-carnivals will take place over the weekends as well as during the period of Archifest. As opposed to an emphasis on the product, the Carnival serves to highlight the process of creation and play as fundamental elements. Through the curation of a series of workshops happening throughout the carnival, attendees will be able to have a hands-on experience of the various crafts occurring within the space, turning the URA Centre into a hub of activity and fun for people of all ages

- 1) Moss Art Workshop
- 2) Urban Sketching @ Telok Ayer
- 3) Handbuilding Pottery Workshop for Beginners
- 4) The Wild Edges
- 5) Paintography
- 6) Intro to Urban Sketching
- 7) Re/Deconstructing Dark Cities
- 8) Love of Sketching Heritage Shophouses in Ink
- 9) Crafting Workshop & Sweet Atelier

Date & Time: 14 September 2022
