A RESILIENT AND SUSTAINABLE ENERGY FUTURE 25 – 28 OCTOBER 2022

DR FATIH BIROL
Executive Director
International Energy Agency (IEA)

DR ING CHRISTIAN BRUCH
President and Chief Executive Officer
Siemens Energy AG

We are proud to announce **Dr Fatih Birol**, Executive Director, International Energy Agency, and **Dr Ing Christian Bruch**, President and Chief Executive Officer, Siemens Energy AG as SIEW 2022's Opening Keynote Address speakers.

Meet the world's energy thought leaders as they share insights at the 15th [Singapore International Energy Week \(SIEW\)](#) from 25 - 28 October 2022. Join us as we continue to bring the world's leading conferences and exhibitions together in one week, one location.

REGISTER NOW!

SINGAPORE ENERGY SUMMIT

The [Singapore Energy Summit \(SES\)](#) facilitates high-level dialogue on energy issues centred around this year's theme, "A Resilient and Sustainable Energy".

SESSION 1: SECURING A RESILIENT AND SUSTAINABLE ENERGY FUTURE

This session will address how regional governments and stakeholders can work together to ensure a sustainable and resilient energy future. Speakers will present their perspectives on the priorities and action needed to drive the dual goals of energy security and energy transition amidst the evolving geopolitical developments. There will also be discussions on the policies and frameworks to transform industry, economy and society to progress towards a secure and sustainable energy transition.

SESSION 2: ACCELERATING LOW-CARBON SOLUTIONS

This session will address how governments and corporates can catalyse the development of supply chains for low-carbon solutions such as hydrogen and carbon capture, utilisation and storage (CCUS). Speakers will also share their perspectives on the role that innovation plays in improving technical

aspects and driving down the costs of low-carbon solutions. There will also be discussions on what roles technologies such as geothermal and nuclear may have in the energy transition.

SPOTLIGHT ON LOW-CARBON INNOVATIONS

This session will explore major challenges inhibiting the meaningful deployment of hydrogen and other low-carbon alternatives. Speakers will share their perspectives on the active steps that industry partners and government agencies can undertake to guide the transformation of the energy value chain against the backdrop of global energy market volatility and technological advancements.

SESSION 3: MOBILISING GREENER FINANCING FOR ENERGY INFRASTRUCTURE

This session will address how greater sustainable private financing and growing corporate net zero commitments can come together to achieve low carbon goals earlier. Speakers will share their perspectives on facilitating green financing for energy infrastructure developments, including how these investments would lead to more renewable energy projects and grid renewals, and interconnections in the region.

About SIEW

The [Singapore International Energy Week \(SIEW\)](#) is an annual platform for energy professionals, policymakers and commentators to discuss and share best practices and solutions within the global energy space. The 15th edition of SIEW will be held from the 25-28 October in Singapore.

About the Energy Market Authority

The Energy Market Authority (EMA) is a statutory board under the Ministry of Trade and Industry. Our main goals are to ensure a reliable and secure energy supply, promote effective competition in the energy market and develop a dynamic energy sector in Singapore. Through our work, the EMA seeks to forge a progressive energy landscape for sustained growth. Please visit www.ema.gov.sg for more information.
