

URBAN SUSTAINABILITY R&D e-Symposia 2021

EMERGING STRONGER: INNOVATIVE CITIES OF TOMORROW

INNOVATING FOR A SUSTAINABLE FUTURE: ROLE OF DEMAND-LED INNOVATION AND ENTERPRISE PARTNERSHIPS

8 OCTOBER 2021 | 4.00pm – 6.00pm

Curious to know how our local Small and Medium Enterprises have been innovating alongside corporates to advance the sustainability agenda? What does it mean to build Research and Innovation capabilities as a startup? How can corporates lead the way in creating partnerships for Innovation?

In this webinar, speakers from corporates and startups will share their sustainability innovation journey, available programmes and support as well as upcoming Open Innovation Challenge calls. Be inspired by the experiences of technology solution providers, as they share about their journey working with corporates and agencies to translate, deploy and proliferate innovations for our sustainable future.

Opening Address

Mr Tan Boon Kim
Executive Director,
Startup & Innovation Ecosystem
Enterprise Singapore

Fireside Chat

Learn from Enterprise Singapore and industry leaders on how we can leverage innovation to meet sustainability targets. Specifically, learn about the challenges and takeaways from running an Opening Innovation Challenge (OIC), and the importance of forming strategic partners to deliver a successful OIC.
