ACCELERATING TRANSFORMATION, BUILDING RESILIENCE

The Built Environment and Property Prospects Seminar 2023 is back as an in-person event.

The global COVID-19 pandemic over the last two years has revolutionised the way we connect, work, and conduct business in the BE sector. Whilst such revolution, including leveraging on new technology, developing higher skills and innovation, has brought about new commercial opportunities to stay ahead of the competition, it has also brought to the fore risks and gaps in the BE world. The 2023 edition of the BEPP brings together the forward-thinking experts and leaders to share their insights on global and local economy outlook, transformation and collaboration to emerge stronger for Built Environment sector, as we navigate the upcoming challenges, opportunities and business strategies collectively to accelerate firm's growth and transformation.
