10 March 2023

Invitation to the 2023 Environmental Engineering Symposium

Dear friends and colleagues, Supervisors of our EVE students and graduates

The Centre for Water Research (CWR) at the Department of Civil and Environmental Engineering (CEE) and The National University of Singapore (NUS) Environmental Research Institute (NERI) would like to invite you to the 2023 Environmental Engineering Symposium.

The Symposium will be held on **Wednesday March 29th between 2 p.m. and 6 p.m.** at Lecture Theatre (LT) 6, Engineering Block E4, 4 Engineering Drive 3, Singapore 117583 at the NUS College of Design and Engineering. Click [here](#) for directions to the venue. As a half-day event, it is organized by the CWR and the NERI, which have established research programs in environmental monitoring and assessment, water-quality engineering, treatment processes for emerging pollutants, air quality systems, and sustainable cities. The primary goals of this Symposium are to provide a common platform for final year undergraduate students to share their research findings with a diverse external community through poster presentations. We believe that the symposium will promote interaction among faculty members, students, alumni, experts from industry, research institutes, government agencies, and other environmental engineering practitioners.

This year, we are glad to announce that our symposium is sponsored by De Nora Water Technologies, Singapore, a provider of water and wastewater treatment solutions with a mission to provide customers with the cost-effective technological solutions. We thank them warmly for their support towards the training of the next generation of Singapore environmental engineers.

This year's Symposium will include oral presentations and poster presentations related to Monitoring & Modelling • Emerging pollutants • Biological Process and Treatment • Physico-chemical Process and Treatment • Sustainable Cities • Environmental Remediation and Biotechnology.

On behalf of the organizing committee, I would like to cordially invite you to the 2023 Environmental Engineering Symposium.

You are invited to register your participation at the following registration [link](https://nus.sydney1.qualtrics.com/jfe/form/SV_b1s7mKBtIjY54UK) https://nus.sydney1.qualtrics.com/jfe/form/SV_b1s7mKBtIjY54UK or scan the QR code below.

Thank you and we look forward to your favorable reply.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'BAE Sungwoo', with a long, sweeping flourish extending to the right.

BAE Sungwoo
Assistant Professor
Chair of the 2023 Environmental Engineering Symposium
Department of Civil and Environmental Engineering (CEE)
National University of Singapore (NUS)
