BCA-SIFMA Seminar on

Unlocking High-Value FM Potential through Integrated FM

11 October 2023 | 2.00pm to 5.30pm
Auditorium T1-1, BCA Braddell Campus

The key transformation area on Sustainable Urban Systems (SUS) under the refreshed ITM aims to achieve low emissions buildings and districts with efficient building management enabled by Integrated, Aggregated and Smart Facility Management (FM). It is essential to proliferate the FM strategies through embracing innovative refreshed business models and solutions for Integrated FM and Aggregated FM.

This seminar aims to share best principles and developments on the transformation shift through strategies adopted in integrated systems, processes, and technology across the value chain.

Join us to gain insights on strategies that will support widespread adoption of integrated/aggregated FM towards our shared ambition of sustainable urban system.
