

BCA-REDAS Seminar on

Optimising Design and Construction for Quality and Maintainability

31 October 2023 | 9.00am to 12.30pm | Auditorium T1-1, BCA Braddell Campus

With the increasing awareness in the relationship between “quality and maintainability”, and better upstream planning for Design for Maintainability (DfM) in a development, it is crucial for the developers to gain the applied knowledge of “quality and maintainability” for more efficient building maintenance in the Operation & Maintenance (O&M) stage.

Join us in this seminar, which aims to share the best practices in ‘quality during design for better maintainability’ and ‘quality during construction to reduce defects’ across the value chain in BE sector. BCA will also share on the latest update on the newly launched CONQUAS banding and provide an overview of plans to achieve the virtuous cycle of uplifting quality standards by driving market demand for responsible developers and competent builders through informed buyers.

TOPICS & SPEAKERS

Sharing on
BCA's Quality
Initiatives

Consistent
Delivery of High
Quality Projects
Project Showcase:
Whistler Grand

Overview of
Quality for
Maintainability
