What is Young Quantity Surveyor (YQS):

YQS program was formed in 2014 for young professionals who are at least a probationer of SISV and age below 40 years old.

Through YQS, we encourage youth to grow their professional networking locally and internationally. YQS can explore different opportunities within other institutes' young professional groups such as BCA, ACES, IES, etc. The YQS program also emboldens members to take part in the annual PAQS Congress to gain insights of their profession across the participating countries.

Event Highlights:

During the networking night, participants will have the opportunity to:

- Understand the perks of being a YQS.
- Not a SISV member yet? - Better understand and get tips and tricks for acquiring SISV membership and the APQS scheme.
- Already a member? - Chat with peers, share latest market insight and experience our inclusive culture.
- Special guest to share in-depth market insight.
