**[COURSE REGISTRATION OPEN HERE](#)**

### **FLMC course overview**

This FIDIC Academy education and training strives to strengthen the business expertise of engineers and other professionals. It also offers networking opportunities and an insight into FIDIC's global activities, including attendance at FIDIC annual Global Infrastructure Conference at a discounted price. The main body of the course entails six live webinars, bespoke case studies followed by a final test in order to obtain the FIDIC certificate of completion.

The industry-leading online management learning programme for rising engineers and other infrastructure professionals run by FIDIC, the Future Leaders Management Course (FLMC), has been officially accredited by the CPD Certification Service. Accreditation by the CPD Certification Service for the FLMC is a further recognition of quality for this already popular and industry leading training programme. With over 25 years' experience providing continuing professional development training certification, the CPD Certification Service is the world's leading organisation for those looking to get CPD certified for training courses and events. Over 700 participants have been through the FLMC since 2004 from over 100 countries.

### **Course objectives**

The objectives of this course are to familiarise engineering professionals in the global infrastructure industry with the principles of FIDIC and an overview of the business realities and management of successfully running a consulting practice. This course is attended by

participants from all over the world and provides great networking opportunities and cultural exchanges.

### **FIDIC Global Infrastructure Conference 2024**

Participants in FLMC have a unique opportunity to engage professionally with course trainers and fellow professionals at the final two-day session held at the annual **FIDIC Global Infrastructure Conference 2024 in Geneva, Switzerland**, bringing together over 30 nationalities to discuss a variety of approaches to the management issues discussed across the course. This offers an unrivalled networking opportunity for future international cooperation as consultants. Participants will prepare and deliver a presentation at the conference to industry leaders on their perception of the challenges as future leaders in the consulting industry. The in-person workshops will be confirmed when we reach the minimum required number of participants.

FIDIC's Annual Global Infrastructure Conference 2024 is optional and offered to participants of the FLMC at a discounted rate. Conference registration will shortly be opened [here](#).

-----  
We thank you for your time and kind understanding and we look forward to welcoming you to the course!

Wishing you a pleasant day.  
Stay safe.

Best regards,  
Oro
