

CHARTING WSH EXCELLENCE, SHAPING THE FUTURE OF BUSINESS

11 September 2024 | Sands Expo and Convention Centre

Join us for the 8th edition of Singapore Workplace Safety and Health (WSH) Conference and gain access to insights from our lineup of over 25 expert speakers, across two plenary sessions and four symposiums.

WSH plays a pivotal role in ensuring business sustainability and a paradigm shift is required to recognise WSH as the cornerstone of business operations. There is now greater emphasis on sustainability objectives and the significance of environmental, social and corporate governance (ESG) reporting. The rapid development of artificial intelligence and automation is also set to revolutionise the way we work and the environment we work in.

Register for the Conference, where you will discover cutting-edge strategies to:

- Integrate WSH excellence with ESG frameworks; and
- Leverage emerging technologies for the future of work.
