4 September 2024 (Wednesday) 1.30pm - 2pm
BEX Asia Main Stage

Edmund Ng
CEO & Co-Founder
Doxa Holdings International

Simplifying Embodied Carbon Calculation through Digital Procurement

In the wake of increasing global awareness and regulatory pressure to reduce carbon footprint, the construction industry faces significant challenges in accurately measuring and managing embodied carbon. Traditional methods of carbon calculation are often complex, time-consuming, and prone to errors. Digital procurement platform, Doxa Connex, however, offers a transformative solution to this problem.
