

20 Aug 2024

Dear ACES Members,

As we are preparing to transit to CORENET X, BCA will be releasing a series of infobites to help the industry understand CORENET X better. Please find the **third** infobite of the series below.

Heard about CORENET X but not sure what it is, what to do, or where to begin?

We're breaking it down. Here are...

4 Simple Steps to Get Ready for CORENET X

Make full use of the CORENET X website go.gov.sg/cx

Everything and anything CORENET X.

Upcoming events, past event materials, circulars, resource toolkits, FAQ. You name it, we have it.

But... if we somehow don't have it, do drop us a query on our website. We want to help!

Bookmark us! go.gov.sg/cx

01

Got a day to spare? Sign yourself up for training.

Unlearn the old processes & understand the key impacts that the new RABW* will bring about!

It's the fastest way to bring yourself up to speed with RABW* and IFC-SG. CPD points and SkillsFuture funding are applicable for certain courses and training providers.

*Regulatory Approval for Building Works

go.gov.sg/cxtraining

02

Go into the details with the Code of Practice.

It spells out requirements for each discipline, at each gateway.

The comprehensive Code of Practice details how to prepare a CORENET X submission, covering:

- Requirements at Gateways
- Model Preparation Process
- BIM Modelling Details

Read all about it at go.gov.sg/cxcop

03

Try CORENET X first-hand with live submissions.

CORENET X is accepting Voluntary Submissions from June 2024.

Use this period to familiarise you and your project teams with CORENET X.

Types of submissions include:

- 3 Gateway (3GW)
- Direct Submission Process (DSP)

Express your interest at go.gov.sg/cxbeta before 1 April 2025.
