

FIDIC ASIA PACIFIC CONFERENCE 2024 NEPAL

“Governance for Climate Shocks”

18TH - 20TH NOVEMBER 2024
Hyatt Regency Kathmandu

CALL FOR ABSTRACTS

Call for Abstract: FIDIC Asia Pacific Conference 2024
“Governance for Climate Shocks”
18th – 20th November 2024

Society of Consulting Architectural and Engineering Firms (SCAEF) cordially invites professionals, researchers, from the dynamic realms of any engineering field such as structures, environmental, geotechnical, and infrastructure, hydropower to submit paper on the impacts of climate change seen over the years and how we prepare to the future.

Join us at the FIDIC (International Federation of Consulting Engineers) Asia Pacific Conference 2024, scheduled to be held at Kathmandu from November **18th to 20th, 2024 at Hyatt Regency**.

With the principal theme of **“Governance for Climate Shocks,”** this conference promises to be a hub of knowledge exchange and innovative discourse on the preparedness, impacts of climate shock on all the field of engineering. We welcome contributions that explore into strategies, solutions, and insights to navigate the challenges faced due climate change.

Deadline

Submit your abstracts to be part of this esteemed conference before **15th August 2024**.

Sub-themes

The abstract should closely relate to the following sub themes:

1. Resilient Path to Climate Shocks - Preparedness
2. Building Resilient Futures: Innovations in Governance and Sustainability
3. Integrating multi-hazard disaster response in sustainable policy interventions
4. Alternative Energy Sources: Renewal Energy and it's future
5. Risk Management, Disaster Forecasting and Early Warning Systems, Risk Management
6. Fresh water sources: Future of snow dependent rivers
7. Factors of global warming and direct mitigation measures to climate shocks.

Submission Guidelines:

Abstracts should be submitted electronically via the Online Platform (Website)/Email: fidicaspacnepal@scaef.org.np

All submissions must be in English language.

The abstract body should be limited to 250-300 words.

The individual submitting the abstract will be considered as both the Presenting Author and the corresponding author.

Presenting authors must be listed as one of co-authors of the submitted abstract.

Presenting authors are responsible for ensuring that all co-authors have provided consent to be included in the abstract submission. Authorship and order of authors must be mutually agreed upon.

The presenting author is obligated to ensure that the abstract content does not violate the copyright or any other rights of third parties.

Submission and presentation of abstracts must adhere to the principle of originality, prohibiting duplication or plagiarism in publications. Failure to comply with these guidelines will result in rejection of the submission or presentation at the Conference. All decisions made by the Technical Committee are final.

The presenting authors bear responsibility for ensuring the accuracy of all contents within the abstract.

Upon abstract submission, presenting authors affirm that their study adheres to ethical guidelines for research and publication, including the legal requirements of the country where the study was conducted.

Presenting authors must declare during submission that the content presented is original and will not be published or presented elsewhere prior to the FIDIC Asia Pacific Conference 2024.

Don't miss this opportunity to showcase your work, engage with industry leaders, and contribute to shaping the future of climate governance.
