

Dear ACES Members,

The Building and Construction Authority (BCA), together with Republic Polytechnic under the Centre of Innovation for Built Environment - Advanced Materials (COI BE-AM), is excited to invite you to the upcoming sharing session on “Biochar Breakthroughs: Transforming Construction and Urban Agriculture”.

The COI BE-AM is a joint effort by Republic Polytechnic, Singapore Polytechnic, Temasek Polytechnic, and supported by Enterprise Singapore, to drive industry-led innovation in advanced materials for greener and sustainable buildings. We invite you to join us at this sharing session hosted by Republic Polytechnic to explore new possibilities for your respective organisations.

The session will provide insights on biochar as a sustainable material, and use cases in the agriculture and BE sectors. The session will also include details of the Code of Practice for the production and application of biochar to illustrate the guidance on the quality assurance of biochar for use in the BE sector. Republic Polytechnic will also share their experience in working with industry stakeholders, to explore opportunities to develop innovations useful for your businesses.
