

Dear (Member),

As we are preparing to transit to CORENET X, BCA has released a series of infobites to help industry understand CORENET X better. The next infobite of the series is appended below.

Key Things to Note for Your CORENET X Journey

ALL

- Enjoy an end-to-end paperless experience!**
Log in securely using SingPass, appoint project members, and submit declarations—all through the CORENET X submission portal!
- Looking to enlist a helping hand?**
You have the option to designate assistants to aid in submission preparation while restricting their access to other projects.
Assistant
Only the assigned project members are authorised to carry out submission and declaration.
- Transacting on behalf of your firm**
Request authorisation from your Corppass administrator to gain access to CORENET X submission portal and log in using Singpass Business.
Find your Corppass administrator at www.corppass.gov.sg > Services > Find Your Corppass Admin.
- Track your TOP/CSC application progress easily with the new dashboard in the portal**
Technical clearances to each agency can proceed separately and concurrently. The final TOP/CSC will be issued by BCA once all requirements are met.

Developer

- Developers, be ready to experience a new level of convenience!**
The CORENET X submission portal now empowers you to view approvals, track project status, and handle payments in one place.
Developer

Architect / Professional Engineer

- Meet your Project Coordinator (PC)!**
The PC is the lead QP for the project and is responsible for setting up the project in CORENET X submission portal, adding project members and assisting the developer with the appointment of project members.
Registered Architect (RA)
- Want a Professional Engineer to lead your project? They can do that too!**
Professional Engineer (PE)
- Eager to commence work on site? Ensure you have the required permits!**
After obtaining Piling and Construction Gateway clearances, it is essential to have all necessary permits before commencing work on site.
Professional Engineer (PE)
- Concerned about external works?**
A separate joint submission on external works to LTA, NParks and PUB can be made after Construction Gateway, at which interfacing details would have been cleared.

Builder

- Licensed Builders and Specialised Licensed Builders, welcome to the CX Community**
TC and AP* for the project can use the CORENET X submission portal for all relevant submissions (e.g. permit application, constructability score etc.).
*Technical Controller (TC) and Approved Person (AP)

AC, RE and RTO

- Accredited Checkers, Resident Engineers, and Resident Technical Officers, you are on board too!**
You will have access to the portal where your involvement is key in making submissions a breeze.
