The CapitaLand Sustainability X Challenge (CSXC) is back! If your innovation and technology can solve sustainability challenges that impact urban development, register now. Organised by SGBC Founding Member CapitaLand, CSXC aims to source for emerging solutions and advance collaboration in sustainability within the urban environment globally.

CSXC provides an opportunity for innovators to showcase and profile solutions to make the urban environment more climate-resilient and resource-efficient. Through the Challenge, innovators will stand a chance to:

- Pilot, test and implement innovations within CapitalLand's buildings located across more than 260 cities in over 40 countries, with over S\$1 million to cover the cost of piloting all the chosen innovations.
- Gain access to local and global markets with expert mentoring on strategy and approach.
- Implement forward-looking solutions for asset types including retail, office, lodging, business parks, industrial, logistics, self storage, data centres and development/construction sites globally.

As a Platinum Partner of CSXC 4th Edition, SGBC is organising a virtual Info Session on **19 Nov 2024** for the industry to learn more about CSXC's focus areas and challenge statements. Attendees will also get to hear from CSXC 2023 finalists on their CSXC journey.

All innovators are welcome! Click the buttons below for more information.
