

FIDIC Academy communication The re-branded FIDIC course titles - no more modules at FIDIC!

Dear FIDIC Member Association,

At the launch of FIDIC Academy in July 2022 it was decided to rebrand all the contract courses to move away from the old module system.

We decided to abandon the module system because it was misleading. Given the very diverse nature of each course's subject matter, it was never actually a linear modular system of learning of 1, 2, 3, 4, and 5.

From now on we will refer to **courses, workshops and webinars at FIDIC Academy:** fidic.academy.

We have a flexible approach to learning, and clients can take any course they like. We recommend prerequisites when choosing some courses and their learning journeys for certain subjects, but we do not have a linear university-style module system with a graduation per se.

For the sake of clarity and uniformity, please take note of the official titles of the FIDIC courses, workshops and webinars we will be referring to and we invite you to use them from now on:

Kind regards,

The FIDIC Academy Team
