

# Online Survey about the Built Environment (BE) Sector for BE In-service Personnel

Much thanks for your support and participation in the focus group with the Professional Boards and Trade Associations and Chambers previously.

In addition to the focus group, we would also like to **invite Built Environment (BE) in-service personnel across the various career tracks (Architects, Engineers, Project Managers, Quantity Surveyors/Cost Consultants, Construction Managers, Digital Delivery Managers, Facilities Managers, Production Managers and Sustainability Consultants) to participate in an online survey about the Built Environment sector** in Singapore. This online survey is initiated by BCA and should only take 10 minutes to complete.

We would appreciate your help in sharing the survey link with ACES members and your colleagues/staff, and in completing the survey by 29 June.

If there is someone you would like me to coordinate with on this, please feel free to forward my email to them as well.

Feel free to reach out if there are any questions. Thank you for your support!
