Topic: Understanding Key Essential Terms in A Collaborative Agreement

Objective

The objective of this seminar is to point out the key terms and its legal implications a Collaboration Agreement. How does the Collaborative Agreement operate and what must be looked out in managing it. We will look at how engineers who are involved in such work, must look out for. There will also be a question-and-answer session, and it is highly recommended as it will be more interactive session.

Seminar Outline

- Introduction to a collaborative agreement
- Key provisions of the NEC4 Professional Service Contract
- Liability from third party losses negligence breach of contract and indemnity issues
- Liability on scope of work and warranty issues from the Consultant perspective
- Resolving disputes and Insurance issues
- Case study discussion and Sharing

SPEAKER:

DAVID SHANMUGAM

David holds a Bachelor of Law degree from the University of London and Master of Business Administration degree from Victoria University. He has many years of legal experience in the private sector and is presently working in a law firm. He is also an Advocate & Solicitor of the Supreme Court of Singapore. Over the years, David has conducted legal training for the corporate sector on various practical legal issues facing the corporate field and has lectured for many training institutions on Business and Company Law. His forte is in the field of corporate and commercial drafting of contracts, including company matters.
