

## Moving into CORENET X: Where are we today?

*CORENET X is now mandatory for projects more than 30,000sqm and will be mandatory to all new projects in October 2026.*

### **We invite you to complete our Industry Readiness Pulse Check Survey 2026!**

This is not a test or evaluation of your firm, but instead – your inputs will be consolidated to help us understand the general state of industry readiness and shape the future support and resources required for the industry.
