Connecting Ultra-Efficient Lighting to Maximise Energy Savings

SGBC Learning Journey to Signify

3:00 PM - 5:00 PM | Thursday, 5 March 2026

Lighting plays a pivotal role in creating environmentally responsible spaces and contributing to a greener, more sustainable future. Join us on this SGBC Learning Journey, supported by SGBC Member Signify, as we explore ways which connected ultra-efficient lighting can maximise energy savings.

During the session at the Signify Lighting Application Centre, participants will gain insights into lighting strategies to maximise scoring under the [Green Mark for Interiors](#) criteria, as well as ultra-efficient lighting solutions and smart IoT-enabled systems that achieve the lowest lighting power budget. Participants will also learn about the science of circadian lighting, smart IoT lighting sensors and systems, solar-based renewable energy outdoor lighting. We will also delve into the critical topic of sustainability, including life cycle assessment (LCA) and environmental product declaration (EPD).
