# FROM INSIGHT TO IMPACT: TEAMBUILD'S HCDT STORY

WEBINAR

**Thursday, 12 March 2026**  
**2.30pm – 5.00pm on Zoom**

TeamBuild's journey with HCDT shows how organisations can use insight to strengthen the employee experience — not just HR processes.

As a growing organisation, TeamBuild recognised the need to better understand where their HR practices stood, and how these directly shaped employee experience across the organisation. Rather than relying on assumptions, they turned to the Human Capital Diagnostic Tool (HCDT) for clarity.

Through HCDT, TeamBuild gained a **structured view of their HR capabilities** — identifying strengths, surfacing gaps, and aligning priorities to what mattered most for their people.

#### Using HCDT, TeamBuild was able to:

- Gain clearer visibility into HR practices impacting employee experience
- Identify focus areas to strengthen consistency and engagement
- Use insights to guide conversations and improvements across the organisation

More importantly, HCDT provided a common language for TeamBuild to reflect on how HR policies, practices, and behaviours influenced day-to-day employee experience — enabling more intentional and people-centred decisions.

This is what happens when HCDT is used as a **reflection and decision tool**, not just an assessment.

That's exactly what we'll explore in the **HCDT Workshop: Practical Tools for Action**

#### What you'll gain from this workshop:

- The intent and scope of what HCDT measures
- How HCDT Insights are used to guide real workforce decisions
- How organisations use HCDT to align HR priorities with business direction
