SGBC Event

JTC-SGBC Seminar 2026: Circular Strategies for a Future-Ready Built Environment

Circular strategies are gaining traction as the built environment seeks practical pathways to reduce carbon emissions, minimise waste, and improve resource efficiency. With Singapore committed to its Zero Waste Masterplan and net-zero emissions by 2050, the case for circularity has never been more urgent. By rethinking how materials are produced, used, and recovered, the industry can move

EVENT DETAILS

Monday, 11 May 2026

2:30PM - 5:15PM

towards a more resilient and future-ready built environment.

The annual JTC-SGBC Seminar 2026 brings together researchers and industry practitioners to explore emerging circular strategies and solutions to transform the construction value chain. Through four focused presentations, participants will gain insights into innovative approaches. This includes carbon capture and utilisation (CCU) to convert captured carbon dioxide and incineration residues into construction materials, and the upcycling of waste glass powder as a cement replacement in concrete. The session will also explore circular management of solar photovoltaic panels at end-of-life, as well as the concept of material passports and buildings as material banks to enable greater material recovery and reuse.

Join us to explore how the built environment can move from a linear model of consumption to a circular one, where buildings truly last.

Matrix Auditorium,
Biopolis, 30 Biopolis St,
Singapore 138671

Event Fees (w/ GST)

SGBC Member: \$50

GMA/GMAP/GMAAP: \$50

Non-Member: \$80

CPD Credits

SGBC-GMP: Pending

APFM: Pending

BOA-SIA: 2 points

SCEM: Pending

SIFMA: 2 points

PE Board: Pending

Seminar Programme

- 2:00 PM **Arrival & Registration**
- 2:30 PM **Opening Address**
Mr. Calvin Chung, ACEO (Engineering & Operations Group), JTC
Mr. Allen Ang, President, Singapore Green Building Council
- 2:40 PM **Closing the Carbon Loop: Carbon Capture, Mineralisation and New Materials for the Built Environment**
Mr. Ko Kee Hoe, Chief Operating Officer, Cora Environment
- 3:10 PM **Waste Glass to Low-Carbon Concrete: Lessons from Laboratory to Implementation**
Dr. Du Hongjian, Director of the Centre for Construction 3D Printing Research,
Department of Civil and Environmental Engineering, National University of Singapore (NUS)
- 3:40 PM **Networking with Refreshments**
- 4:00 PM **Sharing on Building Energy Efficiency Fund by MSE**
- 4:15 PM **Advancing Circularity in Solar PV: Policy, Practice and Technology**
Mr. Tiong Heng Liong, General Manager and Finance Director, Vector Green
Dr. Stanley Wang, Chief Executive Officer and Co-Founder, Etavolt
- 4:45 PM **Unlocking the Circular Economy in Building & Construction with Material Passports**
A/P Sr. Dr. Eugene Seah, Chief Executive Officer, DLS Consultancy Pte Ltd
- 5:15 PM **End of Event**

IMPORTANT NOTE

As the event's details and other pertinent information will be sent directly to the participant via email, please ensure that the email address used for registration is valid and active. If you are registering on behalf of a participant, please use their name and contact details for registration. For multiple participants from the same organisation, please register each participant individually or reach out to the SGBC Events Team.

SGBC reserves the right to amend the Seminar Programme without prior notice. SGBC reserves the right to allocate registrations to ensure a well-balanced representation of professions at the event for the best learning outcomes. Professional CPD points will only be awarded after verification of in-person attendance and payment.
