SIEWConnects
@Shenzhen

Strengthening Energy Systems for Tomorrow

Energy systems are becoming more interconnected, dynamic and technology driven. On 26 May, **SIEWConnects@Shenzhen** brings together stakeholders across the energy ecosystem to explore how technology, energy storage, and smarter financing can strengthen energy systems to meet future demands.

At the session, you will gain insights to:

01
Strengthening energy systems with technology, storage and financing

02
Using digital tools to optimise operations and integrate energy sources

03
Scaling financing models and improving system reliability with storage

Network with like-minded peers, exchange perspectives with our panellists, and be part of a focused discussion on the strategies shaping future energy systems.

Register now to be part of this conversation!

DATE: 26 May 2026

TIME	PROGRAMME
03:00 PM	Start of Registration
03:30 PM	Welcome Remarks by Energy Market Authority (EMA) Puah Kok Keong , Chief Executive, EMA
03:35 PM	Welcome Remarks by China Southern Power Grid
03:40 PM	Scene Setting Presentation
03:45 PM	Panel on Strengthening Energy Systems for Tomorrow The energy transition is progressing, with renewables expanding, digital tools enhancing real-time grid operations, and energy storage rapidly advancing. However, challenges such as ageing infrastructure, limited investment, and increasing system complexity remain. Addressing these gaps requires stronger collaboration across the public and private sectors, supported by innovative financing and enabling mechanisms. This discussion will explore how technology, energy storage, and smarter financing can strengthen energy systems to meet future demands.
04:30 PM	Networking Reception
05:30 PM	End of Programme

**Programme is subject to change*
