Speakers Profile

CYPE is a globally recognized software company at the forefront of digital engineering for the architecture, engineering, and construction (AEC) industry.

Originating from Spain, CYPE delivers powerful, BIM-driven solutions—that streamline the design, analysis, and documentation of building systems—from structural frameworks to M&E and energy performance.

Known for its precision, innovation, and interoperability, CYPE empowers engineers and consultants to work smarter, faster, and with greater confidence across the entire project lifecycle.

The ACES M&E Digital Design Automation Platform (DDAP), developed by CYPE, harnesses these capabilities to support ACES' digitalisation efforts within the M&E engineering community.
