SIEWConnects @Houston

Natural gas remains a cornerstone of global energy systems — but its role is evolving. As energy demand grows and the transition accelerates, how does gas fit into the new energy economy?

Join us in Houston for SIEWConnects@Houston, where global industry leaders will come together to explore the future of gas — from market trends and investment strategies to emerging technologies like carbon capture, hydrogen and low-carbon fuels.

What's on the agenda:

- How natural gas can anchor energy security while supporting the clean energy transition
- The role of gas in the global energy mix over the next two decades
- Balancing energy security, affordability and climate goals in long-term investment decisions
- Which technologies will shape the future of the gas sector

Leaders from across the energy industry sharing insights include:

- **Puah Kok Keong**, Chief Executive, Energy Market Authority of Singapore
- **Najla Jamoussi**, Director, Market Fundamentals – Global LNG, Cheniere
- **Rob Nunmaker**, General Manager, Commercial & Sales, Chevron
- **Anish De**, Global Head of Energy, Natural Resources and Chemicals, KPMG
- **Wolfgang Moehler**, Director and Head of North America Gas Forecasting, S&P Global
- **Ryan Lawrence**, Vice President, LNG Americas, Shell Houston
